Introduction

I am a developer with an engineering mind and creativity is my passion. I am self-disciplined, highly motivated, having multi-tasking ability with polished technical skills.

I have experience in the freelance market as well as working with a small startup as a front end developer. My ability to grasp things is very high which differentiates me from others. I always prefer advancements and try to move with new technologies. I am a passionate web developer with advanced technologies.

I am experienced with Html, CSS, Bootstrap, Bulma, Tailwind, Javascript, Vue Js, Vuetify, Bootstrap-Vue, and Nuxt Js.

I always prefer learning new upcoming technologies to cope up with advanced requirements and problems.
